1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art fails to disclose or make obvious the claimed method or apparatus comprising, in addition to the other recited features of the claim, the features of storing a predetermined amount of charge in an auxiliary capacitance connected to a drain electrode of a thin film transistor, emitting a light beam onto a photosensitive semiconductor layer for a predetermined time in a non-conductive state of the thin film transistor so that the charge stored in the auxiliary capacitance is released from the auxiliary capacitance, and detecting the photoelectric conversion amount based on an amount of charge remaining in the auxiliary capacitance after an emission of a light beam onto the photosensitive semiconductor layer has been completed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
